

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. EXPLANATORY NOTICE.

THE present catalogue of the Alumni and other graduates of Columbia College is the sixth which has been published since the re-organization of the College under its present title, in 1787. These publications have not been periodical; and in no one of them except the last, which was issued in 1865, has there been any attempt to indicate the professions or occupations of the graduates, or to present a record of the honors, academic, civic, or military, which have been conferred upon them. Such an attempt, made for the first time, in the absence of any written record of such things regularly kept at the College or elsewhere, could not but be, to a certain extent, unsuccessful; and accordingly in the issuing of the catalogue of 1865 no credit was claimed for it on the score of perfection or completeness. The publication was avowedly made, in the form adopted, quite as much in the hope of eliciting, by means of the interest it might excite, additional information in regard to the personal history of the graduates, as of giving a permanent form to the information already obtained. This hope has not been wholly disappointed. A number of the Alumni of the College have kindly contributed important additions to the knowledge which had been previously gathered in regard to members of many of the earlier classes; and in consequence of this valuable assistance, the present edition of the catalogue, though still far from being all that could be desired, will be found to exhibit a sensible improvement on the last.

Copies of this catalogue will be sent, as in 1865, to all the living Alumni whose residences are known. Those who may not receive it may be assured that the omission is owing only to want of information as to their proper addresses. They will be promptly supplied, on application, by post or otherwise, to the President, at the College.

Notwithstanding the considerable success which has attended the efforts made to supply the deficiencies of the former publication, the imperfections which will doubtless be detected in the present one can hardly fail to be numerous. This

prefatory note cannot, therefore, be better concluded than by repeating the request earnestly made in 1865, of every graduate into whose hands the catalogue should fall, that he would communicate to the President any information which may serve to improve it in future editions ; completing first his own record, should he find it deficient, and adding any important facts within his knowledge, which the catalogue does not contain, in regard to any other graduate or graduates.
